# WORKSHOPS SCHEDULE

### Monday 2<sup>nd</sup> July, 2018

Afternoon (2h30, 25 attendees): Introduction to Bro Network
 Security Monitor

by **Eva Szilagyi** (CEO at Alzette Information Security) and **David Szili** (CTO at Alzette Information Security)

# Tuesday 3<sup>rd</sup> July, 2018

- Morning (3h, 25 attendees): AIL-Framework: A modular framework to analyse potential information leaks by Sami Mokaddem (CIRCL)
- Afternoon (2h, 25 attendees): URL Analysis with Faup by Sébastien Tricaud (Open source and security pro and enthusiast, Splunk)

## Wednesday 4<sup>th</sup> July, 2018

• Morning (2h, 25 attendees): FreeIPA: Open Source Identity Management

by **Florence Renaud** (Senior Software Engineer FreeIPA, Red Hat) and **Fraser Tweedale** (Software Engineer, Red Hat)

• Afternoon (3h, 20 attendees): **Suricata and SELKS workshop** by **Éric Leblond** (Suricata core developer, Stamus Networks)

### Monday 2<sup>nd</sup> July, 2018

• 14:00 - 14:15: launching talk

#### **Linux Distribution Security**

 14:15 - 14:50: Debian security team: behind the curtains by Yves-Alexis Perez (Security researcher and developer, Debian security team)

#### Reverse and Low-Level Session

- 14:50 15:25: r2frida Better Together
  by Ole André V. Ravnås (Frida developer) and Sergi Alvarez aka pancake (r2 developer)
- 15:25 16-00: Static instrumentation based on executable file formats

by Romain Thomas (LIEF developer, Quarkslab)

#### ~~~ afternoon pause ~~~

• 16:20 - 16:55: Machine-Code Analysis With Open-Source Decompiler RetDec

by Jakub Kroustek & Peter Matula (RetDec developers, Avast software)

• 16:55 - 17:30: Are there Spectre-based malware on your Android smartphone?

by Axelle Apvrille (Senior researcher, Fortinet)

• 17:30 - 17:50: A graphical user interface for radare2: Cutter by Antide Petit (Cutter developer)

### Tuesday 3<sup>rd</sup> July, 2018

#### **Network Security Session**

- 09:00 09:35: Traffic filtering at scale on Linux by François Serman (OVH)
- 09:35 10:10: Performance with a S like Security: the eBPF XDP case

by Éric Leblond (Suricata core developer, Stamus Networks)

~~~ morning pause ~~~

- 10:30 11:05: **KEYNOTE: a 10 years journey in Linux firewalling** by **Pablo Neira Ayuso** (Head of Netfilter core team)
- 11:05 11:40: Full packet capture for the masses by Xavier Mertens (Security consultant, ISC SANS handler)
- 11:40 12:15: Rumps session by you!

~~~ MID DAY BREAK ~~~

#### Web Security Session

- 14:15 14:50: Security and Self-Driving Computers by Stefan Eissing (Mod\_md developer (Let's Encrypt Apache module))
- 14:50 15:25: Snuffleupagus: killing bug classes and virtual patching the rest

by Julien Voisin, Thibault Koechlin, Simon Magnin-Feysot (Snuffleupagus developers, NBS Systems) • 15:25 - 15:45: Preview of Vulture's upcoming web filtering engine

by Jérémie Jourdin and Hugo Soszynski (Vulture developers, aDvens)

 15:45 - 16:05: SecureDrop, for whistle-blowers by François Poulain & Loïc Darchary (SecureDrop admin, developer)

~~~ afternoon pause ~~~

#### **IAM Session**

• 16:25 - 17:00: Second factor authentication (2FA) in LemonLDAP::NG

by **Clément Oudot** & **Xavier Guimard** (LemonLDAP::NG developers)

• 17:00 - 17:35: No way JOSE! Lessons for authors and implementers of open standards

by Fraser Tweedale (Software Engineer, Red Hat)

• 17:35 - 17:55: Too bad... your password has just been stolen! Did you consider using 2FA?

by **Florence Blanc-Renaud** (Senior Software Engineer FreeIPA, Red Hat)

### Wednesday 4<sup>th</sup> July, 2018

#### **Blue Team Session**

- 09:00 09:35: Fail frequently to avoid disaster, or how to organically build an open threat intelligence sharing standard to keep the intelligence community free and sane! by Alexandre Dulaunoy (CIRCL) & Andras Iklody (CIRCL)
- 09:35 10:10: The story of Greendale by Thomas Chopitea (Forensics investigator and engineer, Google)

~~~ morning pause ~~~

#### Secure Programming and Architecture Session

• 10:30 - 11:05: Internals of Landlock: a new kind of Linux Security Module leveraging eBPF

by Mickaël Salaün (Security researcher, ANSSI)

- 11:05 11:40: Secure programming is slow really? by Pierre Chifflier (Long time FLOSS developer, ANSSI)
- 11:40 12:15: Immutable infrastructure and zero trust networking: designing your system for resilience by Geoffroy Couprie (Security researcher and developer, Clever Cloud)

~~~ MID DAY BREAK ~~~

#### **IoT Security Session**

- 14:15 14:50: IoT Honeypot, new types of attacks by Sébastien Tricaud (Open source and security pro and enthusiast, Splunk)
- 14:50 15:25: Io(M)T Security: A year in review
  by Rayna Stamboliyska (Risk management and crisis mitigation expert)
- 15:25 16:00: Expl-iot: IoT Security Testing Framework by Aseem Jakhar (R&D director and open source developer, Payatu software lab)

~~~ afternoon pause ~~~

#### **Red Team Session**

• 16:20 - 16:40: Freedom Fighting Mode - Open Source Hacking Harness

by Ivan Kwiatkowski (Pentester and malware analyst)

- 16:40 17:00: **Open Hardware for (software) offensive security** by **Antoine Cervoise** (IT security engineer, NTT Security)
- 17:00 17:20: Shadow on the Wall Risks and Flaws with Shadowsocks

by Niklas Abel (Pentester and security auditor, X41)

• 17:20 - 17:40: Glassfish from (IN)Secure admin by Jérémy Mousset (Pentester)
