

Automated package signing

Context

- RPM packages → PGP signatures
- Continuous delivery: 140-220 releases per month
- Easier to get it right when you do not have to touch it
- ❤️ Sigul

The Savior

HashiCorp

Vault

RPM signing with Vault

- GPG plugin
- 20 lines of crappy Shell as the GPG sign command for rpmsign

Vault GPG secret backend

<https://github.com/LeSuisse/vault-gpg-plugin>

rpmsign/Vault GPG backend utilities
